I am electing to pay my monthly tuition in the following manner: (please choose 1 option)

\_\_\_\_\_ The monthly rate, which will be the same amount each month, as reflected in the table above **OR**

\_\_\_\_\_ The daily rate, which will result in varied payments each month depending on the number of instructional days in the month, as reflected in the table above.

I understand that should I choose to remove my child from the program before the end of the school year, that the daily rate will be used to determine any balances or credit due. I understand that if I choose the daily rate, I will not be eligible for the monthly parent participation discount.
